

## Datalab: MAP® Growth™ Workbook

### Accessing the MAP® Growth™ Workbook

To access the MAP® Growth™ workbook for current rosters, log into <https://datalab.ccsd.net>. Choose **Explore > 1-CCSD > MAP Growth Workbook**. To view a brief overview video on this workbook, visit [bit.ly/MAPseries](http://bit.ly/MAPseries).

The MAP® Growth™ Workbook provides enhanced reporting features not available in the NWEA reporting system ([teach.mapnwea.org](http://teach.mapnwea.org)). Many of the visualizations can be compared to CCSD data and/or Region data on the same screen and can be filtered by grade, test, and IEP/LEP designations.

### MAP® Growth™ Workbook Features

Each tab of the MAP® Growth™ Workbook visualization provides a different view of the data:

Workbook Tab	Description
Math, Reading, Science	<ul style="list-style-type: none"> <li>View grade level at-risk percentages for math, reading, and science side-by-side.</li> <li>View percentages of students according to the 25<sup>th</sup>, 40<sup>th</sup>, or 61<sup>st</sup> percentile.</li> <li>View term data by grade level.</li> <li>View data disaggregated by IEP, LEP, or teacher.</li> </ul>
Season to Season	<ul style="list-style-type: none"> <li>View grade level at-risk data for each testing term by discipline.</li> <li>View percentages of students scoring at the 25<sup>th</sup>, 40<sup>th</sup>, or 61<sup>st</sup> percentile.</li> <li>Compare at-risk status across grade levels.</li> <li>View data disaggregated by IEP, LEP, or teacher.</li> </ul>
Met PG – Same Season	<ul style="list-style-type: none"> <li>View percentages of students who met their projected growth from the same season over different years (e.g., Winter '18 to Winter '19).</li> <li>View grade level data by discipline.</li> <li>Compare percentages of students who met projected growth across grade levels.</li> <li>View data disaggregated by teacher.</li> </ul>
Met PG – Season to Season	<ul style="list-style-type: none"> <li>View percentages of students who met their projected growth from different seasons within the same year (e.g., Winter '18 to Spring '19).</li> <li>View math, reading, and science separately.</li> <li>Compare percentages of students who met projected growth across grade levels.</li> <li>View data disaggregated by teacher.</li> </ul>
Disaggregated Results	<ul style="list-style-type: none"> <li>View at-risk percentages by selected term with math, reading, and science side-by-side.</li> <li>View percentages of students scoring at the 25<sup>th</sup>, 40<sup>th</sup>, or 61<sup>st</sup> percentile.</li> <li>View data disaggregated by ethnicity, gender, IEP, LEP, or teacher.</li> </ul>
Goals by Grade	<ul style="list-style-type: none"> <li>View percentages of students in each achievement level by goal area (e.g., Measurement and Data, Geometry, etc.).</li> <li>View math, reading, and science separately.</li> <li>Compare percentages for each goal area by testing term to determine areas of strengths and areas of opportunity.</li> <li>View data disaggregated by teacher.</li> </ul>
Student List	<ul style="list-style-type: none"> <li>Use available filter options to display student data by teacher.</li> <li>Filter by grade, test, term, and test area (subject).</li> <li>View RIT, percentile, Lexile, goal area achievement levels, and projected vs. actual growth all on one page.</li> <li>Export student lists to a CSV file.</li> </ul>

Visit [teachingandlearning.ccsd.net](http://teachingandlearning.ccsd.net) for available assessment resources. Please contact the Assessment Department at (702) 799-1041, option 2, with any questions.
